OpenEdge Release 10.1B03 as of Fri Nov  2 22:11:46 EDT 2007      Delete this
[UBroker.AS.qadui_AStrain]
    appserviceNameList=qadui_AStrain         Replace train with <env-name> in vi use:    :%s/train/<env-name>
    brokerLogFile=/dr02/qdt/logs/qadui_AStrain.broker.log
    controllingNameServer=NS1
    description=UI AppServer
    environment=qadui
    initialSrvrInstance=5      Reduce to 1 - just for training system
    maxSrvrInstance=10
    minSrvrInstance=1
    operatingMode=Stateless
    portNumber=51300     Add 50 to this
    PROPATH=/dr02/qad2008/qadui/com/mfgpro:/dr02/qad2008/qadui:.:/dr02/qad2008:/      Add your new config
dr02/qad2008/bbi:/dr02/qad2008/fin:/dr02/qad2008/qra/qra.pl:/dr02/qad2008/fin/pr    directory
oxypatch:/dr02/qad2008/fin/proxy.pl:/dr02/qad2008/xrc:/dr01/progress/dlc101b        <qad-inst-dir>/<env-
    srvrActivateProc=                                                               name>/configs
    srvrConnectProc=
    srvrLogFile=/dr02/qdt/logs/qadui_AStrain.server.log
    srvrMaxPort=52120    Add 50 to these
    srvrMinPort=52111
    srvrShutdownProc=
    srvrStartupParam=-s 128 -mmax 16000 -inp 32000 -tok 20000 -TB 31 -TM 32 -Bt
10000 -rereadnolock -c 30 -D 100 -nb 200 -noshvarfix -cpinternal ISO8859-1 -cpst
ream ISO8859-1 -pf /dr02/qad2008/base-live-set.pf    Replace this with the one in your configs directory
    srvrStartupProc=mfaistrt.p                          <qad-inst-dir>/<env-name>/configs/base-live-set.pf
    sslEnable=0
    uuid=9c76e7a3b7c43b52:-4f3fb908:1186fbefccd:-7fff    Replace this with
    workDir=/dr02/qad2008/qadui                          uuid=!{newValue:UUID}
```
